

ASSEMBLY AND PAINTING INSTRUCTIONS

Elvira®

Mistress of the Dark™
MODEL KIT

SCREAMIN'

**HORROR
SERIES #2**

STOP!

READ THESE INSTRUCTIONS FIRST

Before you begin building your official Elvira Model Kit, read the instructions and study the illustrations carefully. To successfully assemble Elvira, you will need the following items:

BLOW DRYER

The blow dryer is used to warm up the vinyl parts of your model for easier cutting.

HOBBY KNIFE

The hobby knife is used to cut away excess plastic on some parts. Only cut away excess plastic where indicated.

SUPER GLUE

Your Elvira Model Kit is made of PVC vinyl. Super glue or a similar instant adhesive works very well for assembling vinyl parts. Super glue is available at your local supermarket, department store or hardware store. Use caution and follow manufacturer's instructions when using glue.

SPECIAL NOTES ON ASSEMBLY AND CUSTOM PAINTING

WEIGHTING YOUR MODEL:

We recommend that you fill Elvira's legs with plaster of paris before assembly. This will give your model a nice weight and will be less likely to tip over when on display. Cut a hole in the top of plug big enough to pour in plaster. Do not cut off plug! Allow plaster to dry thoroughly before cementing.

FINISHING SEAMS:

Every effort has been made to create as few seams as possible in your model. However, if you find any seams objectionable, they may be filled with modeling putty, and sanded before painting. Vinyl spackling also works very well for this purpose.

PAINTING YOUR MODEL:

We recommend that you use water-based acrylic paints to finish your model. Acrylics will apply easily and smoothly to the vinyl parts and give a very realistic look when completed. Follow color suggestions below and box cover art for painting.

All Clothing — Black

Shoes — Black

Bracelets — Black with Silver Studs

Ring — Gold with Red Stone

Screamin' products are proudly made in the USA from the finest materials available. We design our models with the collector in mind, and hope that your official Elvira Model Kit will give you a lifetime of enjoyment. If you would like to see other characters produced by Screamin' Products, tell us. If you would like to be on our mailing list, please fill out the coupon enclosed. We will keep you updated as new items are produced. Thank you for your support.

Cut away excess.
Right arm should be
cemented to right shoulder
and right wrist.

Cut away excess.
Left arm should be
cemented to left shoulder
and left wrist.

NOTICE

Warpage may occur during shipping, distorting model parts. This warpage is NOT permanent. PVC parts will spring back to normal shape as soon as heated with a blow dryer or in hot water.

Cut away excess.

Do not cut away.
Insert plug into hole
cut in upper torso.

CUTTING BEFORE ASSEMBLY

Before you cut, warm area to be cut with a blow dryer. Cut carefully and slowly. Vinyl parts will cut very easily when warm.

- 1 Start by cutting away excess plastic indicated by shaded areas.
- 2 After excess plastic is cut away, test-fit your parts together before cementing. It may be necessary to trim parts further for a better fit.
- 3 Once parts are properly cut, we recommend that you wash all parts with soap and water. Dishwashing detergent is excellent for this purpose. Washing parts will help paint apply more smoothly. Make sure all parts are dry before cementing.

SCREAMIN'

ASSEMBLY AND CEMENTING

Use only PVC cement. Follow manufacturer's instructions carefully. Avoid getting excess cement on model, as this will warp the detail.

- 4** Cement right arm to right shoulder and to right wrist.
- 5** Cement left arm to left shoulder and to left wrist.
- 6** Cement upper torso assembly onto plug on lower torso. Note: We recommend weighting lower torso before cementing. (See special notes on assembly and custom painting.)

What do you get when you cross a sex goddess with the supernatural? One sultry, notorious cult figure (and a figure it is!) named Elvira® Mistress of the Dark™. And is she ever hot! In no time at all, her whacky, kinky, sensual allure has drawn more than 35,000 fans purring and cooing to her official fan club. Why? Well, once you see Elvira you realize bad taste never had it so good. Elvira is simply a sex symbol with bite, a comedic vamp whose quick wit puts our funny bone next to the jugular vein. In fact, as the wise-cracking hostess of L.A.'s Movie Macabre, Elvira was syndicated in more than 70 markets nationwide. And her look has become so popular, her costume is the largest selling in America. Couple this with her Thriller-videos collection recently released, and her first ever feature length film, and it's easy to see why Elvira, Mistress of the Dark is considered to be the most original and outrageous character in pop culture today.

Now, to celebrate the succulent success of this voluptuous vixen, an official Elvira Model Kit has been created for the serious collector. Screamin' proudly presents this museum quality reproduction, so that fans everywhere can do just what they've always wanted to with Elvira:

Take her home!
